Assistant Commissioner for Patents
Washington, D.C. 20231

Sir:

Applicants submit the following supplemental amendments and remarks in the above-referenced patent application. Applicants note that a petition for a two month extension of time and authorization to charge the appropriate fee was enclosed with the response filed September 16, 1996, extending the period for response to September 16, 1996. Out of an abundance of caution, Applicants have herewith included a petition for a third month extension, thereby extending the period for response to October 16, 1996.

IN THE CLAIMS:

Please add the following new claims:

CI
